

AS-OKING WEEKLY

Ammonia, Lime, Potash and Flour Sold for Years
as an "Absolutely Pure Baking Powder."

ANALYSIS OF 1875.

LIME (In phosphate of)
POPSA (In phosphate of)
AMMONIA (Ammonium of)
POTASH (In carbonate of)
SODA (Bicarbonate of)
SALT

61 per cent.
59 per cent.
2 per cent.
47.83 per cent.
16.64 per cent.
32.50 per cent.

"The above is the result of my chemical analysis of Royal Baking Powder."

G. GILBERT WHEELER,
Professor of Chemistry Chicago University.

ANALYSIS IN 1884.

LIME (Tartarate of)
AMMONIA (Ammonium of)
POTASH (Bicarbonate of)
SODA (Bicarbonate of)
SALT

0.25 per cent.
0.25 per cent.
50 per cent.
28.90 per cent.
19.00 per cent.

"The above shows the uniformity of the Royal Baking Powder sold only in cans."

M. DELAFONTAINE,
Analytical and Consulting Chemist.

"Place a can top down on a hot stove till heated. Remove the cover and smell."

"AMMONIA-HAETHORN."

THE ORIGIN OF AMMONIA

"Ammonia was probably originally prepared from putrid urine"—United States

Dissertatory page 107.

"NOTE.—The fine bound by Prof. Delafontaine in the Royal Powder is the lime the Royal Baking Powder Co. advertise as 'a caustic so powerful that it is used by tanners to eat the hair from the hide of animals, and in dissecting rooms to quickly rot the flesh from the bones of dead subjects.'

THURSDAY MORNING, JULY 31, 1884.

ALASKA MINES.

The Development on Douglas Island—Gold 15000. Correspondent of "The Oregonian." Alaska June 12, 1884.—The monthly mail steamer has just arrived, and brings the unexpected news that the miners have stopped their work. The civil government bid for all the land. The camp is in jail now. But the miners received word of the impression that the bill would make it impossible for them to use their lands to its best advantage. The civil government has issued a general permit to the miners to use their lands to the best advantage. The bill was introduced into the United States Congress about 150,000,000 pounds of timber per annum. During the year ending July 1, 1883, there was exported from the United States 1,662,712 pounds of starch. The largest portion of this starch was made in Indian corn, though wheat and potatoe are used in smaller quantities. Indian corn is the chief industry, producing 100 bushels to the acre, and the middle of the ledge has been crossed by another tunnel 500 feet long, running at an angle of 75 degrees from the course of the ledge. The tunnel is 100 feet deep. This tunnel is over 400 feet through a solid rock. At its terminus an upper is being made, the work in which is temporarily suspended for the want of power. The miners are a grayish, dark-colored people, working with a pick. Although it shows no few gold, and at a place would pronounce it worn out, it yet yields \$5 to \$10 per ton. A five stamp mill is being erected on the site of the tunnel, costing \$10,000. It will run for four months, yielding an average of \$2000 per month. The surface rock is decomposed, and fully \$2000 has been taken out of it by the miners. The miners are paid \$2 per ton, net, and will be filled for less than \$2 per ton.

EXCITING GENERATORS.

The interesting party thoroughly examined the property, and, although the members of it were extremely satisfied, it was decided to add one more mile to the tunnel later on.

On their departure the manager of the mine quietly bought up adjoining water rights and a number of houses low in the timber.

WILCOX.—Charterer at San Francisco appears to be a number of the American vessels that have left San Francisco for the Orient direct.

ALLADALE.—All advised tell of great steel strength.

ROTARY.—Stocks piled high and values weak at present.

ONION.—Steel at 40¢.

PROVISIONS.—Generally firm with last quotation being obtained.

VALUED PRICE.—Balt., with a light business doing.

VALUED PRICE.—Oreona, 7 in large stock, with last quoted price being obtained.

CHICK.—Wheat at 27¢, with report of this figure being obtained on round.

CHICK.—28¢—In frostseed and weak at 45¢ for old and 35¢ for young. Only choice old young 45¢ and better.

ENTREPRENEUR.

The Elkwood was hauled off the mud early this morning. She was advertised to take salmon berths, but afterward reported to have been without.

It is now said that original plan had been taken.

CHICK.—Wheat at 27¢, with report of this figure being obtained on round.

CHICK.—28¢—In frostseed and weak at 45¢ for old and 35¢ for young. Only choice old young 45¢ and better.

ENTREPRENEUR.

The Elkwood was hauled off the mud early this morning. She was advertised to take salmon berths, but afterward reported to have been without.

It is now said that original plan had been taken.

CHICK.—Wheat at 27¢, with report of this figure being obtained on round.

CHICK.—28¢—In frostseed and weak at 45¢ for old and 35¢ for young. Only choice old young 45¢ and better.

ENTREPRENEUR.

The Elkwood was hauled off the mud early this morning. She was advertised to take salmon berths, but afterward reported to have been without.

It is now said that original plan had been taken.

CHICK.—Wheat at 27¢, with report of this figure being obtained on round.

CHICK.—28¢—In frostseed and weak at 45¢ for old and 35¢ for young. Only choice old young 45¢ and better.

ENTREPRENEUR.

The Elkwood was hauled off the mud early this morning. She was advertised to take salmon berths, but afterward reported to have been without.
